**ENG: Czech Internet is flooded with fake news alleging parasites are infesting items such as antigen tests, that now mandated by the Government.**

The [Biology Centre of the Czech Academy of Sciences](#) is disproving disinformation that has been spreading through the Czech Internet with the aid of videos and other prank materials alleging that parasites have infested the swabs that come with antigen tests. According to the findings of scientific researchers, there are no parasites to be found in or on such items.

**CZE: Falešné zprávy v českých médiích (antigenní testy).**

Český Internet je zaplaven falešnými zprávami o tom, že paraziti napadají předněty, jako jsou antigenní testy, kterényní vláda porvěřila.
